Sir:

Please enter the following preliminary amendment prior to examination
 of the above application.

IN THE CLAIMS

Please amend the claims as shown below:

1. (Original) A connection member for use in conjunction with elements
 of a folding/demountable assembly for forming an environment, in particular with
 track elements of an assembly guiding a toy vehicle, the connection member
 comprising a central body extending between end sections, said end sections being
 5 shaped so as, in use, to be engageable in complementary shaped recesses formed in the
 elements, said connection member, in use, extending between adjacent elements with
 each end section engaged in a recess formed in one of the elements so as to secure said
 pieces together.
2. (Original) A connection piece according to claim 1, wherein the main
 body is formed from an elastically deformable material.
3. (Currently Amended) A connection piece according to claim 1 or
 claim 2, wherein the main body has a basal flange track element.
